

# Aman Kumar

Frontend Developer — Mobile App / Web Developer

✉ akaman0055@gmail.com ☎ +91-780-781-2126 in LinkedIn

## PROFESSIONAL SUMMARY

Contributed to production-ready apps and websites at Ninja Deliveries. Experienced in delivering scalable features with Firebase Firestore, React Native, React.js, Expo, and Vite. Also have a strong foundation in Core Java and its concepts, including multithreading, Java 8, synchronization, and reflection.

## TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Frameworks & Libraries:** React Native, React.js,
- **Database & Backend:** MySQL, Firebase Firestore
- **Development Tools:** Eclipse, VScode, Github, Jira Board
- **Mobile Development:** Cross-platform Apps, React Navigation, Expo cli, EAS

## EXPERIENCE

### Mobile App Developer Intern

Jun 2025 – Present

Ninja Deliveries, Dharamshala, Himachal Pradesh – **Remote**

**Tech Stack:** React Native, React.js, Firebase, Firestore, Expo

- Engineered customer-facing coupon system with dynamic visibility, expiry handling, and usage validation
- Implemented referral-driven rider onboarding with secure authentication and Firestore-backed data flow
- Developed Rider Dashboard featuring profile management, QR-based product scanning, and order items checklist
- Enhanced FreshGreens platform by building real-time order tracking for perishable goods using React.js
- Optimized CRUD operations and data synchronization through efficient integration of Firebase Firestore

## PROJECTS

### To-Do List App

Jun 2025

**Tech Stack:** React Native, Firebase, expo cli

- Developed a simple To-Do app with task creation, updating, deletion, and list viewing and also subtask functionality with complete CRUD support
- Implemented subtask support with the ability to view complete subtask lists by selecting a parent task
- Ensured smooth data handling and real-time task management using Firebase Firestore

### Rider Mobile Application Features – Ninja Deliveries

Jul 2025

**Tech Stack:** React Native, Firebase Firestore, Expo cli

- Architected secure rider onboarding system with one-time referral code validation and authentication workflow
- Engineered comprehensive Rider Dashboard with real-time profile management and Firestore database integration
- Implemented QR code scanning functionality for instant order retrieval, displaying detailed item specifications and pricing
- Designed automated order assignment system with validation protocols and QR code lifecycle management

### Customer App Feature - Ninja Deliveries

Aug 2025

**Tech Stack:** React Native, Firebase Firestore, Expo CLI

- Implemented dynamic coupon system with visibility rules based on usage and expiry status
- Developed intuitive frontend logic to display active, expired, and redeemed coupons in real time
- Integrated Firestore CRUD operations to manage coupon lifecycle and ensure consistent user experience

## EDUCATION

### Bachelor of Computer Applications (BCA)

2022 – 2025

Sardar Patel University, Mandi Himachal Pradesh

CGPA: 7.5

3-Year Academic Scholarship Recipient

## CERTIFICATIONS

Java Intermediate – SoloLearn
